

American International University-Bangladesh (AIUB)

Web Technologies (N) - Lab Final Examination Manual

University Club Membership Registration

Duration: 2 Hours

Full Marks: 5

Problem Statement:

The AIUB Student Affairs Office is introducing an online registration system for students who wish to join university clubs. To ensure accurate information, every registration must be validated before submission. Develop a professional University Club Membership Registration Form using HTML, CSS, and JavaScript.

Task Requirements

Field	Input Type	Validation
First Name	Text	Required, alphabets only
Last Name	Text	Required, alphabets only
Email Address	Email	Required, valid email format
Password	Password	Required, Use valid password, Lock for more than 3 attempts.
Gender	Radio Button	One option must be selected
Interested Clubs	Checkbox	Select at least one club
Club Category	Dropdown	Choose a valid category (default not allowed)
Why do you want to join?	Text Area	Required, minimum 20 characters

JavaScript Concepts to Use

- addEventListener()
- preventDefault()
- getElementById()
- querySelector()/querySelectorAll()
- Functions, if-else
- Regular Expressions, DOM Manipulation

****Submission Guideline: Submit the task as folder name: Lab_final_MID in your github. Folder contains all 3 files of HTML, CSS, JS and a SS of Output. ****
